

**An International Tri-Conference:
ICODEL 2023, ISEAC 2023 and ASEANnale 2023**
22-25 August 2023

CALL FOR PAPERS

RATIONALE

Our world today is becoming increasingly interconnected. However, we are also facing a range of complex and interrelated challenges that require from multidisciplinary to pluridisciplinary solutions. Among the most pressing issues we face today are sustainable education, one health, and threats in digital landscapes.

The recent global health crisis has shown the important role that open, and distance e-learning (ODEL) plays in ensuring learning continuity as well as promoting wider access to education. Even as more universities and schools adopt ODeL to enhance their academic programs, they also need to pay attention to other disruptions caused by changing workforce requirements, new and emerging technologies, and shifting learner profiles. The educational system is also called upon to contribute to preparing citizens who can navigate a future threatened by interconnected problems of environmental degradation, economic inequalities, and social exclusion. More than ever, there is a need for the educational sector to discuss and reflect on how flexible ways of teaching and learning can contribute to addressing these intersecting sustainability issues and hopefully come up with innovative ideas to seize the opportunities and address the challenges that lay ahead.

IMPORTANT DATES

JUNE 06	Submission of Abstract Deadline
JULY 01	Review Results
JULY 07	Early Registration

TRI-CONFERENCE

The University of the Philippines Open University (UPOU), in collaboration with Southeast Asian Regional Center for Graduate Study and Research in Agriculture (SEARCA), UPOU Foundation, Inc., and the Philippine Society for Distance Learning (PSDL), brings together the Tri-Conference on 22-25 August 2023 with the theme **"Sustainability in Education: Intersections, Ideation, Innovations."** The Tri-Conference will bring together the **5th International Conference on Open and Distance eLearning**, the **1st International Symposium on Education and AI Convergence**, and the **ASEANnale 2023**.

The Tri-Conference will be a hybrid conference, maximizing the affordances of each mode of delivery. Plenary and paper presentations will be delivered online, while unconference sessions will be conducted face-to-face at the University of the Philippines Open University (UPOU) Headquarters in Los Banos, Laguna, Philippines, for the ICODEL and at the SEARCA for the ASEANnale. Unconference sessions will include workshops, collaborative activities, festivals, hackathons, and other alternative ways of sharing and co-creating knowledge. Unconference sessions will have limited slots.

Details of the sub-themes, abstract submission guidelines, registration fees, contact details, and other relevant information for the Tri-Conference can be found at **tricon.upou.edu.ph** or the respective official conference websites: **icodel.org** (ICODEL), **iseac.upou.edu.ph** (ISEAC) and **aseannale.upou.edu.ph** (ASEANnale).

Questions can be directed to the Secretariat at **icodelsecretariat@upou.edu.ph**.
